

ST CALIPERS

BY PIOTR GRZYBOWSKI

ST Calipers is a minimalistic design with an emphasis on simplicity combined with high quality materials and attention to detail.

ST Calipers inspiration comes from a pair of callipers, a tool used by designers to make measurements, that can be folded.

Made from high quality ply and finished with Abet HPL, ST Calipers is extremely durable and suitable for high use areas.

ST Calipers received the iF DESIGN AWARD 2016, which is one of the most prestigious design competitions in the world today!

Designer Piotr Grzybowski

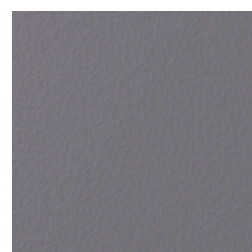

Piotr Grzybowski graduated from the Academy of Fine Arts in Wrocław and went on to co-found ST furniture. Piotr has a passion for creating unique and modern pieces of furniture from a wide range of materials using both modern and traditional carpentry techniques.

ABET CLIMB TEXTURED HPL

The surface is slightly and pleasantly textured giving the table depth and added warmth.

ABET SEI MATT HPL

The historical Abet Laminate finish designed in the Sixties, which is matt and pleasant to the touch.
