NOTI

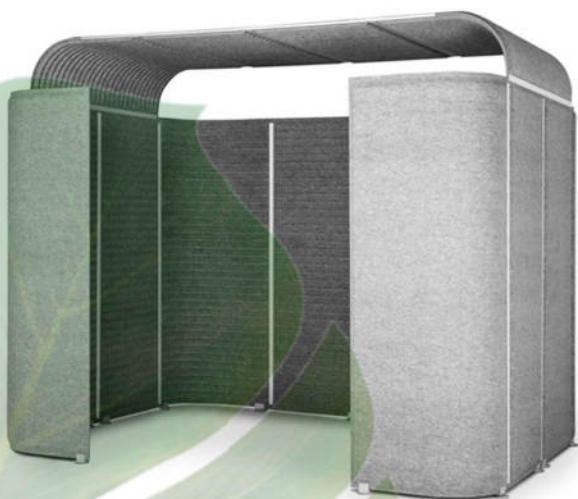

Soundroom Collection

SoundRoom by NOTI is an original and innovative system of office furniture. It comprises a range of complementary solutions which make it possible to compose a landscape of the contemporary office with a focus on spatial and acoustic aspects. SoundRoom integrates an innovative acoustic panel technology with the sound-diffusing geometry drawing on solutions that are used in recording studios. The systemic design consisting of a variety of mobile acoustic screens makes it possible to deliver an array of functionalities required for work, and to create an architectural context for furniture.

Meeting Room from €3638 ex VAT

Working Room from €3056 ex V.

NOTI

Mishell Collection

A large family of seats for uses both at home and in the office, hotel, restaurant, club, waiting rooms. The strongly profited bucket shape providing high seating comfort, its elegant form and carefully prepared details are features, which make the furniture stand out in the market. The characteristic bucket shape is repeatable in armchairs, chairs and hackers which are made of the molded polyurethane foams forms. The collection is complemented with small tables with tops of varnished or naturally veneered MDF, set on supports matching the seats.

Chair from €439 ex VAT

Barstool from €431 ex VAT

Lounge Armchair from €967 ex VAT

Coffe table from €264 ex VAT

NOTI

Manta Collection

The family of sofas, armchairs and chairs in a specific shape inspired by origami toys. The collection has special elbow rest and the backrest in characteristic shape of trapezoid leaning outside, has a soft foam body based on skids. In vivid colors, like a flower, whose petals flare up, the armchair creates beautiful spots of color in the interior. The family also includes tables with characteristic bent tabletop rims made of natural veneer.

Chair from €740 ex VAT

Armchair from €936 ex VAT

Lounge Armchair from €1122 ex VAT

NOTI

Clapp Collection

The collection is intended mainly for public interiors – offices, hotels, and also service, commercial and catering outlets, as well as residential interiors. Inspired by armchairs with wooden legs, so popular in the 60s (especially the '366' armchair model by Józef Chierowski), the collection alludes to the design principle, though the form characterized by well-defined edges and distinctly overdrawn proportions of the wooden elements give it a very modern expression. This combination of vintage aesthetics and modern form, plus a wide range of wood finishes and upholstery materials, make the collection suitable for interiors of various styles and functionalities. The Clapp collection has been awarded the Red Dot Product Design 2014 Award.

PAGED MEBLE

480.000 chairs a year

Paged Meble continues the tradition of one of the most experienced furniture companies in Poland. The history of the company goes back to 1881, when one of the first bentwood furniture factories in the world was established in Jasienica. That location is a symbol of the unprecedented tradition and business continuity of this longest operating furniture manufacturer in Poland, who has been uninterruptedly running and developing its activities for more than one hundred and thirty years.

At present, the company is one of the leading European manufacturers of furniture, especially in terms of the uniqueness of its offer that includes the bentwood furniture - handmade products manufactured only in a few places in the world.

Three plants located in Jasienica, Sędziszów Małopolski and Jarocin supply furniture collections to the Polish market and to 50 countries on all continents, including such distant locations as Japan, Australia, United States and Colombia. Our furniture is characterized by unique and advanced design, meticulous performance, variety of finishes and a high proportion of carefully selected solid wood and natural veneers.

The offer of Paged brand is available in 250 distribution points throughout Poland.

COMFORTY

Oyster Collection

Referencing the organic design of the 50s, the Oyster takes advantage of moulded foam injection technology to become a piece of dual nature. The smooth, comfortable body sits perfectly with most sofas, as well as working as a standalone piece – in both private homes and public spaces. Its elegant, rounded shape with the curved lines of the seat and armrests integrated in a single form, creates a welcoming, embracing effect.

A more extravagant version of the upholstery puts an extra accent on the fabric, bringing to the fore its volume, texture and richness. This dose of flux and uncertainty makes the Oyster a sophisticated and expressive piece, likely to stand out as a key feature in a home setting. The neatly padded, shell-like body, with the added soft cushions for extra comfort, will contribute a tidy look to an interior. In this durable version, the Oyster will work perfectly in public spaces like offices and receptions. The Oyster comes with the three types of bases and two types of upholstery.

Oyster cushion from €1175 ex VAT

08

COMFORTY

Floating Collection

The very clean, simple form is astonishing in its comfort of use. The innovative solution displaying the construction neither denies nor interferes with classic sofa typology. It is an innovation relying not on stylization but on the search for new solutions. There is a fascinating play between the external and internal elements.

This project demonstrates esthetic values, located outside the structure. Thanks to this, it seems to float. Thanks to its unique construction, the sofa length can be easily extended, simply by adding the seating modules.

Floating is available in one or combined fabrics. The frame can be powder-coated in any colour from the RAL palette and Comforty's sand structure Sahara finishing collection.

Sofa from €4670 ex VAT

Armchair from €2447 ex VAT

09

COMFORTY

Mellow Collection

Mellow is a range of multipurpose furniture products that contribute to an interior with their softness, sense of cosiness and refined details. The idea sprang from the correlation of two design languages to create a clear and coherent form. The spherical seat, combined with a neatly shaped surface, results in a surprising blend of different impressions.

The softness and ultimate comfort of the seat contrasts well with the tightly upholstered, defined mantle. The tidy silhouette underlines a sense of security and calmness and creates a micro-environment – a shelter and warm enfolded space.

Depending on the upholstery fabric and the height of the rigorously shaped structure, the final result allows for the placing of the product in different arrangements – in a private home or within a public or office space.

The high back provides a sense of familiarity and comfort to offices and public spaces.

The structured textile will add both some extra sophistication and a cutting edge look, while the more disciplined, solid colour fabric will accentuate the design of the product and help to fill an open space with a significant form.

366 CONCEPT

Easy chair collection

366 Concept is a company reviving Polish design.

We began in 2014 by reintroducing to the market on the exclusive license the legendary 366 Easy Chair designed by Joseph Chierowski in 1962.

Paying a lot of attention to detail and place a lot of emphasis on quality of workmanship.

366 Concept use wood that is seasoned for at least 7 years and which comes from trusted suppliers.

Ten dedicated people, each handling a consecutive stage of the production process, work on each easy chair – from selecting the wood, to dyeing, foam upholstering, sewing, right up to fixing the label.

LOFT DECORA

Contract

Following in the footsteps of Grandfather Florek two brothers have set out to produce simple, modern furniture from the two staple materials...

OAK and STEEL.

Based out of small workshop with seasoned craftsman, Loft Decora take pride in hand selecting the solid wood from the raw planks and join it in their own unique way.

With attention to detail and a unique ability to balance the natural grain each surface is fixed to a solid steel construction. Loft produce all furniture by hand with almost 85% of items being of a custom size, shape or finish.

SWALLOW'S TAIL

FURNITURE

Swallow's Tail Furniture is a Warsaw based design company established by designer and artist duo Piotr Grzybowski and Magda Hubka. The name of company comes from a Polish translation of the carpenters joint "A Dove Tail or "Swallow's Tail". STF was set up in 2014, gaining international interest thanks to the Must Have 2015 and iF Design Award 2016 awards. All Swallow's Tail Furniture is distinctly recognisable and unique and always, absolutely always of the highest quality. STF combines traditional carpenters' craftsmanship with modern design with the use of the latest technology. A glimpse into the past, to draw inspiration from the best tradition of Art and a glimpse into the future to bring innovative ideas to life.

VZOR

ICONIC HISTORIC DESIGN

VZOR aims at creating a cross-section collection of timeless Polish mid-century furniture designs which will be further expanded to include the designs of outstanding contemporary artists.

Rather than building our collections around sets of loosely interrelated products, the VZOR brand's product lines are and will be representative of the work of particular designers.

VZOR's approach is to put the designs into serial production using state-of-the-art quality materials and technologies, while at the same time respecting the patent and the copyright.

The VZOR's business model breeds the conditions for iconic historic furniture that have only been exhibited in galleries and museums to be produced industrially in premium quality and available to consumers of design in advantageous prices.
