CREATED FOR QUIET

Today we place a premium on peace and quiet. It may seem that a specially engineered piece of acoustic furniture for one person is a luxury. However, we think everyone should have the opportunity to have a private space to themselves, even for just five minutes. The new Hide Acoustic Pod is the ideal elegant solution, with superior comfort and acoustic powers. Having a sense of private space - shielded from sounds and visual distractions - helps to put us at ease. The feeling of relief is tangible, as we're able to focus on our laptop, tablet or phone.

Expert at creating comfort, we have designed an acoustic pod that is more luxurious than most. The Hide Acoustic Pod features a contoured, soft foam back and webbed seat, and can be made in any choice of fabric or faux leather, both inside and out. There is the choice of a static or swivel base, and power and USB charge for static models. With a small footprint, it fits in any social space easily. The Hide Low Pod is the ideal match to complete the set.

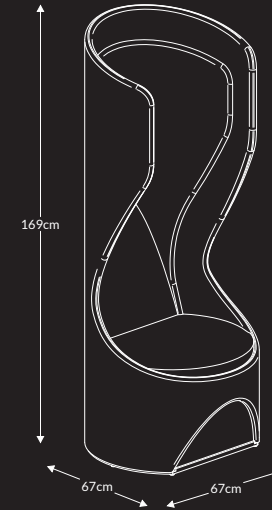

Specification

- _ Noise-cancelling design created for high-traffic areas*
- _ The ideal place to make calls or for mobile working
- _ Extremely comfortable webbed seat with soft, foamed back
- _ Can be upholstered in any fabric or faux leather – inside and out
- _ Static or swivel options for both models
- _ Optional power and USB charge for static models

5 Year Warranty 100% Recyclable Fire Retardant Fabric & Foams Made to Order Responsible Forestry
