Basic technical specification:

Physical dimensions

Width: 1000 mm

Length: 1000 mm

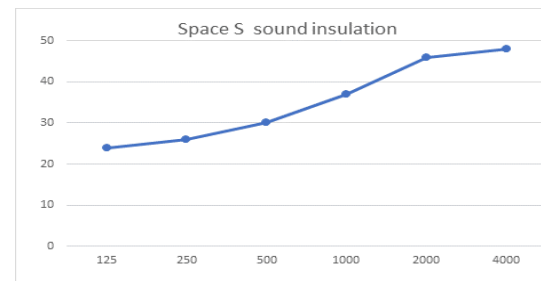

Absolute Height: 2247 mm

Height Inside: 2080 mm

Weight: 350 kg

Acoustic performance

Acoustic isolation:

Inside noise level: LAeq <35 dB

Minimal RT inside the booth

Fan performance

Airflow: 60 m³ / per hour / per person

Fan emitted noise level: LAeq <32 dB

Activated by motion sensor: Yes

Lighting performance

Power: 3,7 W

Source brightness: 600 lx at source

Brightness: > 300 lm/m² (10 cm on top of table)

Light color temperature: 3000 K

Power supply

Power: 18 W

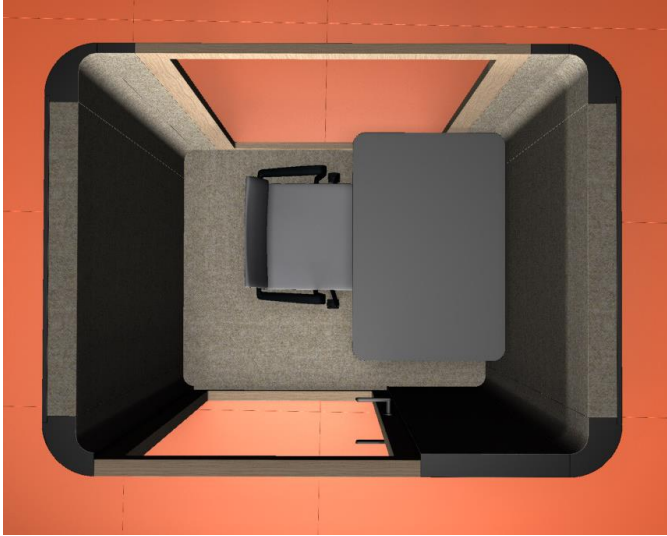

Input parameters: 100 – 240 V

Output parameters: 12V/1,5 A

Space M

Expected product launch:

June 2019

Dimensions: 1200 x 1600 x 2247mm

Two versions:

- Single person focus work / video conference call
- Private, informal meeting space for 2 persons

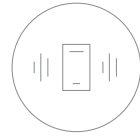

Isolation

Low tones

Mid tones

High tones

Multiple additional options (*to be confirmed*) to increase comfort of use, such as:

- USB charging socket for mobile phone or tablets
- Induction phone charger
- LAN connection for maximum network bandwidth availability
- Electric height adjustment desk
- VESA mount system for monitor or TV

Space L

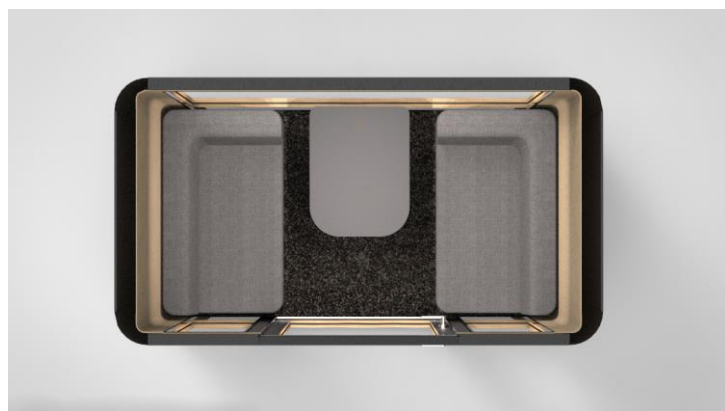

Expected product launch:

Autumn 2019

Dimensions: **1350** x 2200 x 2247mm

Purpose: from 2 to 4 persons

meeting / video conference call

Isolation

Booth

Shell

Discreet, graphic & fluid, our Shell blends exceptional acoustic performance, flexibility and simple installation behind a brilliant design.

Absorption

Mid tones

High tones

Corners in a room are undeniably tricky, hard to fill and decorate. Shell redefines their use, giving them not only a stylish edge but, above all, an acoustic function.

Hanged on a ceiling, Shell looks stunning, almost like a piece of modern art. While its front can be upholstered in a variety of fabrics, its metal back is always painted in one of our carefully chosen colors.

Tower

- The Tower family is available in 2 shapes - cylinder or cube, and 3 sizes - 1m, 1.5m, 2m.
- The perfect finish look? Add a white, black or wooden tabletop on the 1m tower.
- The cherry on the cake? The tabletop can feature an induction charger.

Duo

Mid tones

High tones

<- Melamine foam

High tones

<- Polyurethane foam

Absorption

- Duo screens are offered in a pure rectangular shape with rounded corners
- Fits perfectly to all types of furnishings
- Choose among our classic, neutral colors to further enhance quietness or mix & match multiple shades to make the composition gracefully stand out.

Blocks

Blocks, our versatile family of acoustic panels, celebrate the classic geometrical shapes, adding structure & familiarity to any interior while offering the highest sound absorption properties.

The beauty of Blocks emerges when multiple panels are hanged together on a wall, or on a ceiling. The meeting of their rounded edges creates a beautiful interplay of light and shadows, which can be further underlined by a tasteful selection of colors.

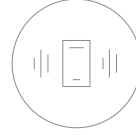

Absorption

Low tones

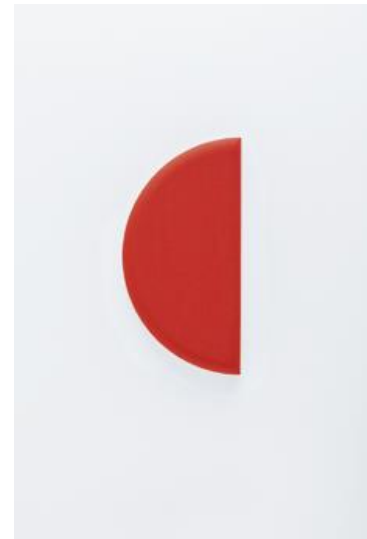

Mid tones

High tones

Featuring 6 key shapes in various sizes, Blocks offer endless configuration possibilities. You can either keep it calm, making a simple repeat pattern, or let your imagination free and create a complex piece of „art“.

Canvas

Rings

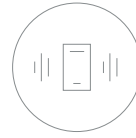

Absorption

Low tones

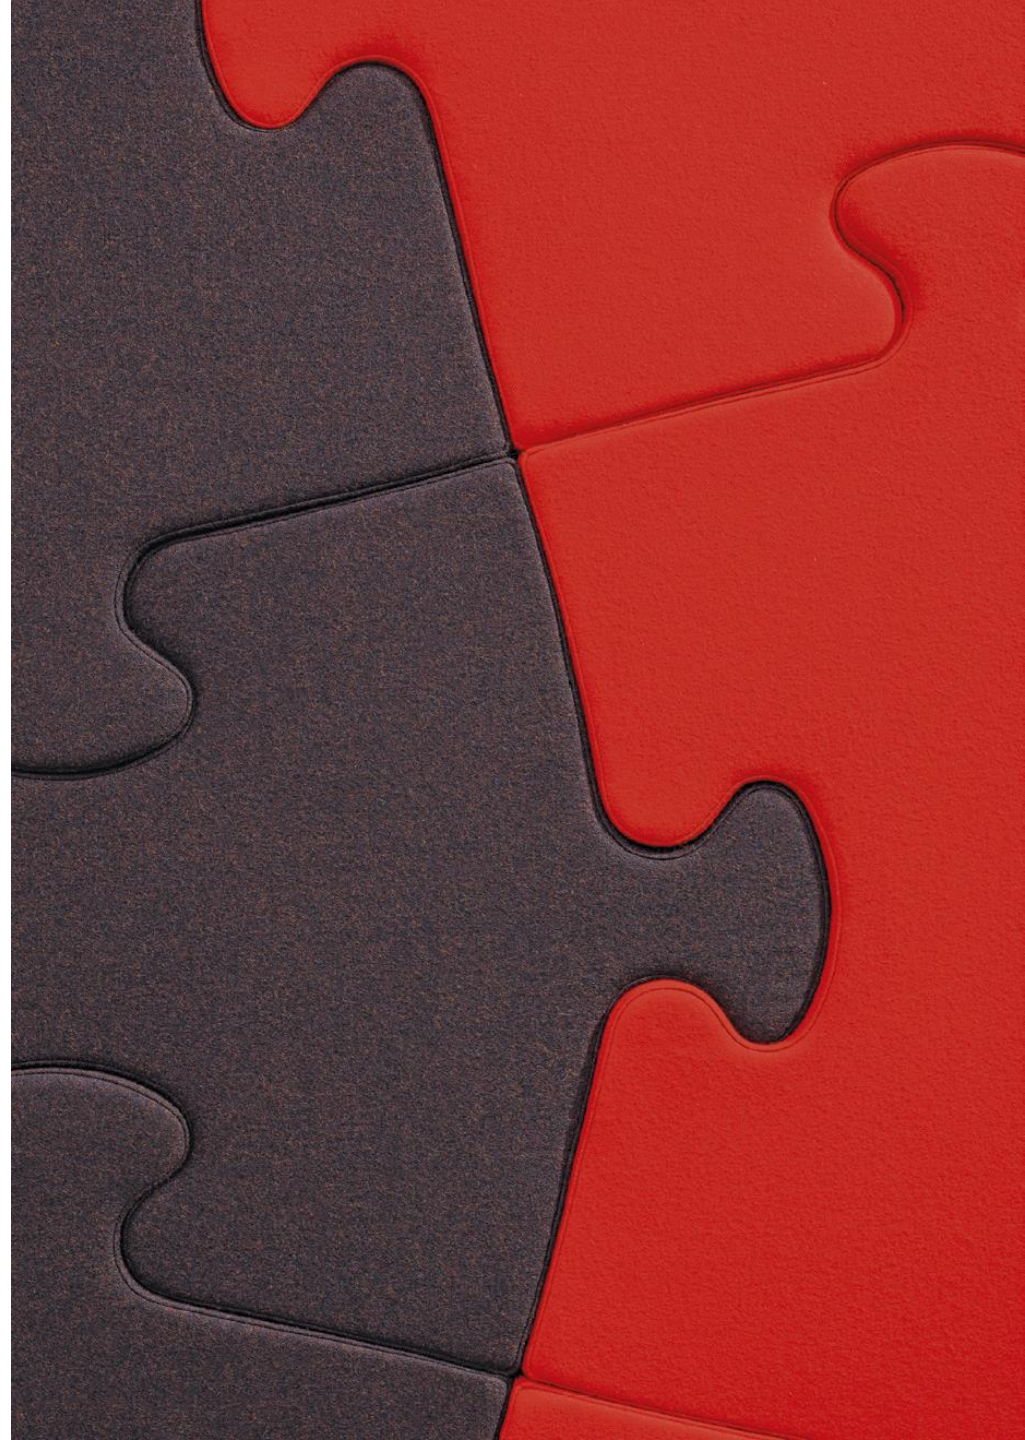

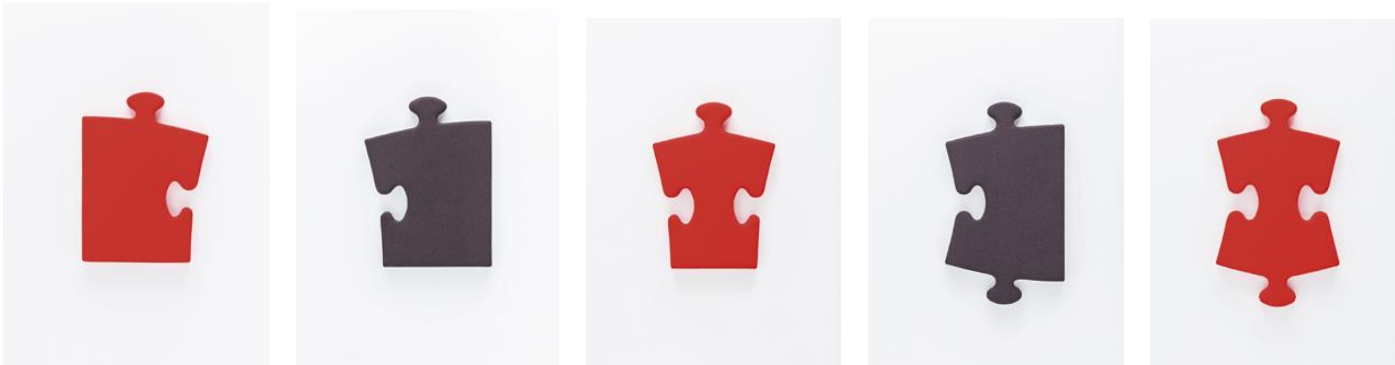

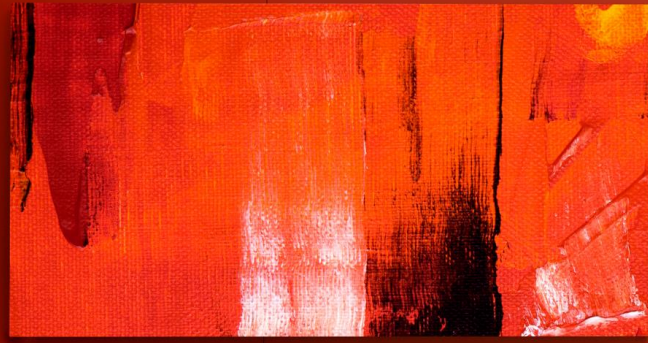

Mid tones

High tones

- Puzzles are simple and technical device that absorbs noise efficiently and resists frivolity.
- Puzzles: they easily fit in almost everywhere.
- By combining the 5 key Puzzle pieces, you can build infinite tableau structures or use random pieces in free style.
- Upholstery and sewing quality execution, choose a combination of textures & colors to achieve a dynamic effect, or create a monochrome combination for a quieter, yet playful look.
