

# COLONY

---

**FRÖVI®**

# COLONY

---

A bold step forward in workspace design, challenging the everyday thinking of working practices, and open plan environments that we have all become accustomed with.

Colony is a modular octagonal pod, that can be configured into many different designs, creating a space within a space, each with their own atmosphere and community feeling.

This pioneering piece is unlike any of our other designs, it is not just a product, it's a vessel for other products both old and new to feature.

With Colony, a truly unique inspirational space can be created.

Explore the possibilities by using our online configurator.
