DESIGN SERVICE

Our highly skilled and experienced design team can really bring your project to life with a full design & layout service. Once we get some feedback from you our team will then come up with some initial layout options and colour 3D renderings. Once you're happy & set on the layout we can then put a full colour & design scheme together that includes paint finishes, fabric colours, seating finishes, flooring types & colours, office furniture & more.

We also provide you with a full project management solution which starts at our very first meeting right through to the completion of your project - Taking all the hassle of an office fit-out or refurbishment out of your hands.
